Subject: RE: Issue Log and Summary Product Testing Matrix

Sensitivity: Confidential

Dave:
It would be helpful if you get clarification from Ken as to how he defines the "start" and "finish" dates for the studies. Is "start" defined as start of the non-clinical/clinical conduct and "finish" defined as delivery of final report?

Please confirm.

Thanks,
Valerie

Issue Log and Matrix attached for your review/updating. Please make your changes in RED and return by close of business Wednesday. REMINDER: When updating the Matrix, Ken would like to see both the start(St)and finish(Fn)dates.

Thanks,
\
Dave
